

## 7.2.1 – Describe at least two institutional best practices

The best institutional practices can be described as followed:

### **(1) To create awareness about importance of girl's education and women empowerment**

In 2001 there were around are 150 girls in arts and commerce but in 2019-20 there are more than 1450 girls who are studying in Arts and Commerce stream. This is our best practice because we have contributed a lot in increasing the ratio of girl education with time. It's have been our efforts to make parents understand the importance of education in a girl's life. During the academic year of 2019-20 institution has organized a guest lecture on ***"Save girl child"*** on the date **29<sup>th</sup> August,2019.** There was also held an awareness program on the topic of ***use of sanitary napkins*** on **23<sup>rd</sup> September,2019.** **Two days seminar** was organized on **12-13<sup>th</sup> February,2020 under RUSA Component 9(Equity and Gender Sensitization).** Awareness program on **help line of ABHAYAM** was held on **17<sup>th</sup> February,2020.**

**(2) Blood donation and regular blood check up:** Various blood donation camps have been organized whenever it is possible. The most of the tribal people suffer from Sickle Cell Anemia and awareness regarding same in made during blood check up and donation camps. Besides, NSS camps are also organized every year in which the NSS unit adopts particular village and contributes to the development of that village through funds. We have also received award from blood bank NGO for consistently participating in blood donation. During the covid-19 pandemic, our institute organized blood donation camp on 01/06/2020 .
