

Code of Ethics to Check Malpractices and Plagiarism in Research

The institution tries to make teachers and students aware about malpractices in research and writing articles related to subject. It is very important to refer the real author in the work of research.

Our Institution promotes ethical research and scholarship of the highest order. We try to motivate students to write assignments referring original text.

Rule of Writing Research and Assignment papers for students and teachers:

1. Refer the original writer for the work.
2. Check the work with plagiarism on the software available on website.
3. Eradicate the repetition or the self plagiarism.
4. Refer all the work in reference and bibliography.
5. Mark the charts and graph proper if applicable.
